

# Automation Assessment

Optimize your automation implementation with our Shopware Automation Assessment service. Our experts evaluate your current setup, identify improvement areas, and provide actionable recommendations to maximize the benefits of Shopware's Flow Builder and Rule Builder.

## Key highlights of Automation Assessment service:

- Current automation setup evaluation to assess the efficiency of your current Flow Builder and Rule Builder setup to identify any gaps or areas for improvement
- Optimization recommendations based on a detailed report. They may include refining workflows, optimizing rule configurations, enhancing trigger events, and improving the overall efficiency of your automation processes.
- Best practices and guidance on how to design effective workflows, create advanced rule configurations, implement conditional actions, and streamline your automation processes
- Performance monitoring to analyze the effectiveness of the automation workflows
- Defining iterative improvements based on the results

## Your investment:

- Two days consulting with your personal expert

Benefit from the Automation Assessment service, ensuring efficient and effective automation workflows for your business.
